

# WESSAM KHRAISAT

## Full-Stack Developer & Platform Builder

Irbid, Jordan · wessam.khraisat98@gmail.com · +962 776 515 369 · linkedin.com/in/divbux · github.com/wessamkhraisat98

## PROFESSIONAL SUMMARY

Full-Stack Developer with 6+ years of hands-on experience building and operating real-world web platforms. Founder of DivBux (1.2M+ registered users) and several related digital products. Strong in Native PHP with custom MVC architecture, payment systems, anti-fraud engines, real-time features (WebSocket), and server infrastructure. Currently advancing software engineering skills at Orange Coding Academy while continuing to maintain and improve production platforms.

## EXPERIENCE & PROJECTS

### Founder & Full-Stack Developer — DivBux

2020 – Present · Remote (Irbid, Jordan)

- Built and continuously maintain a large-scale paid-to-click / micro-task / CPA advertising platform serving **1.2 million+** registered users worldwide.
- Designed and implemented a custom PHP MVC framework with a proprietary template engine, multi-currency wallets, referral systems, and automated payout flows.
- Developed CPA & Offerwall postback engine, multi-account anti-fraud detection, VPN shielding, and admin analytics dashboards.
- Integrated 20+ payment and payout methods (PayPal, Stripe, crypto, and others).
- Managed full infrastructure: Nginx/Apache, Redis caching, MySQL optimization, Cloudflare, cPanel/WHM/Webuzo, cron jobs and Supervisor.
- Handled growth, cost optimization, and day-to-day product decisions.

### Founder & Developer — DivCash

2023 – Present · Remote

- Built a companion reward platform focused on multi-currency systems and improved user experience.
- Currently evolving the product toward a full electronic wallet solution while sharing infrastructure and lessons learned from DivBux.

### Developer — Additional Platforms

2020 – 2025 · Remote

- **DivChanger** — Online currency exchange and money transfer intermediary with secure transaction handling.
- **DivLancer** — Freelance marketplace platform.
- **DivBlogger** — Content publishing platform with AdSense monetization.
- **DivRay** — Suite of online tools (SEO utilities, file conversion services).

## TECHNICAL SKILLS

|                         |                                                                                                                      |
|-------------------------|----------------------------------------------------------------------------------------------------------------------|
| Backend & Architecture  | Native PHP 8, Custom MVC + Template Engine, REST APIs, Laravel (learning projects), Node.js (chat & trading systems) |
| Databases & Caching     | MySQL / MariaDB, Redis, Database Normalization, Index Profiling, Complex Queries                                     |
| Payments & Security     | PayPal, Stripe, Crypto integrations, Multi-currency wallets, Anti-fraud systems, WebSocket (real-time), SSL          |
| Frontend                | HTML5, CSS3 (Flex/Grid), JavaScript (ES6+), jQuery, Responsive & Accessible UI                                       |
| DevOps & Infrastructure | Nginx, Apache, Cloudflare, cPanel / WHM / Webuzo / Plesk, Cron + Supervisor, Git/GitHub, Cost optimization           |
| Other                   | cURL / Postman, Photoshop, SEO, C++ & C# (from structured courses), Python (CS50)                                    |

## EDUCATION & CERTIFICATIONS

## Orange Coding Academy — Software Engineering Program

Irbid, Jordan · September 2026 – Present

Intensive full-stack program focusing on clean code, databases, APIs, teamwork, version control, and modern software engineering practices.

## CS50: Introduction to Computer Science — Harvard University

2021

Covered C, algorithms, data structures, SQL, memory management, and core computer science concepts.

## 26+ Technical Certificates — Programming Advices

Ongoing

C++, Object-Oriented Programming, Data Structures, Algorithms, Database Normalization, Clean Code, and System Architecture.

## Additional

- English Certificate — Life Center American Institute (Aqaba, Jordan)
- French A1 — Higher Studies, Algeria
- Full Academic Scholarship — Rosary Sisters School (2014–2017)
- Previously studied Human Medicine in Algeria before pivoting to software development.

## LANGUAGES

---

Arabic (Native) · English (Very Good) · French (A1)
